COINTELEGRAPH
The future of money

Delivering the latest news, insights, and analysis from the blockchain and crypto industries
Cointelegraph was founded in 2013, when the words “blockchain” and “crypto” were only known among a few underground techies.

The world had begun to change, so we developed a leading independent digital media resource that covers a wide range of news on blockchain technology, crypto assets and emerging fintech trends.
Localized versions

We are the leading crypto media resource in every country, with respectful regional teams. We are a media group that unites regional Cointelegraph offices from all over the world:

- Local editorial teams
- Unique, perceptive material
- Regionally-specific analytics
- Local offices with native writers
